WORK EXPERIENCE

University of Southern Miss/Mississippi Coding Academy
April 2021 – Present
Assistant Instructor/Programmer   *Gulfport, MS*

- Mentored and graduated 20+ individuals from the first 2 years of the academy helped 60% find jobs within their first 6 months
- Responsible for recruiting, interviewing and on-boarding 50+ possible coders
- Designed 10 new lesson plans and study projects to introduce and reinforce core language concepts in C#, SQL, HTML/CSS, and Javascript
- Functioned as an IT Specialist and led in updating, upgrading, and maintaining company equipment such as laptops, servers, and projectors
- Oversaw and evaluated multiple student projects utilizing Agile management and included the process of 2 week sprints into the curriculum with 8 projects in my time at the academy
- Built and upgraded a WPF Registration/Clock in system for students and interviewees to use
- Maintained and built relationships with the City of Biloxi and Gulf Coast Impact Solutions for the academy and secured $300,000 in funding from sponsors

American Healthtech
Aug 2019 – Oct 2020
Associate Engineer I   *Ridgeland, MS*

- Gained full stack experience with a sales product from both developer and quality assurance perspectives
- Collaborated on 7 completed projects (most notably a rapid COVID-19 alert messaging system) by developing UI/UX, database integration, and other types of features independently and collaboratively in Angular, SQL, and React
- Software installation, troubleshooting, configuration, error tracking and reporting over a year + period

Golden Triangle Coding Academy
April 2018 – July 2019
Junior Coder   *Starkville, MS*

- Gained coding experience through assessments, projects, and daily assignments over the course of a 11 month program
- Worked on monthly community projects such as organizing a computer science workshop for elementary schools in the Columbus Municipal School District
